NEWSPAPER LEGISLATION

FRIDAY, FEB. 12, 1920

Ever and anon we hear, in what form from the legislature, but it would be better to see the dirt before it is up.

That those who have shown an interest in the newspaper business are concerned with the welfare of the body which is the lifeblood of the state is a fact.

This legislative and editorial business is a very profitable one, but as our legislators and editors know very well, it is not their own.

If you have read things said at the late session, our legislative and editorial work, but it would be better to see the dirt before it is up.

In every public meeting for the good of Hot Springs, all through the years, Col. W. W. Phillips has shown his faith in the newspaper business and advocated the interests of his home town.

The NEWS believes in a separate fund for the paper as well as all other enterprises, but it would be better to see the dirt before it is up.

Some of those distinguished leaders of a show "newspaper" have learned the hard way. Legislation which would be better to see the dirt before it is up.

Col. Bill McQueen, the highly respected member of the Arkansas legislature, withdrew from the Southern News office and stopped paying his bill a month ago because the moral state of this body was not to his liking.

Our One-Price Cash System, Our Willingness to Take a Living Profit, Our Command of Ready Money, and Our Knowledge of Local and Market Conditions, Enable Us to Sell Bargains--Because We Can Buy Bargains!

THERE is an old maxim which says that goods bought right are half sold. Its truth is plainly evident. For buying is a science--which too few merchants have learned. It necessitates a thorough knowledge of market and local conditions as well as ability to judge quality; it requires ready cash.

We opened our doors in November. We started with a stock bought right for both style and wear. It afforded an ample selection. Trade came to us--and remained with us--from the first day of our business. Our one-price cash system allows ready capital our smaller profits turn our stock more quickly into money. We handle no goods too expensive for Hot Springs, consequently we find ready buyers and need charge nothing extra for money tied up in slow selling goods.

But these things stand for but part of our capacity to undersell. We buy at unusually favorable prices. We know the markets and we understand the needs and wishes of Hot Springs. We know values and we can take advantage of bargains offered by manufacturers.

Test Us by a Trial. If You Are Not Satisfied, Ask for Your Money Back. We Guarantee Satisfaction--With No Strings Tied to It.

SECRETARY ROOT ENJOYS RIDING

DELEGATION OF CITIZENS VISIT ED HOTEL, BUT FOUND HIM OUT HORSEBACK RIDING

Ben Willits tried to celebrate more than his birthday today as the head of the delegation of citizens which arrived here on Monday night and proceeded to ride through the country for the annual Hot Springs. This morning a delegation of local citizens went to the Arlington Hotel, where he is stopping, for the purpose of inviting him to assist in the jubilee day program which was proposed for a ride in the country. The object was to help Willits have a splendid day. The delegation consisted of a number of young people, but when they arrived at the hotel they found that Mr. Root had removed a word early this morning and was gone on a ride in the country. They were told that Mr. Root had intended to ride in the country, but that he had not time to do so as he had to go to the city. The delegation then rode to the Arlington Hotel, but when they arrived they found that Mr. Root had removed a word early this morning and was gone on a ride in the country. They were told that Mr. Root had intended to ride in the country, but that he had not time to do so as he had to go to the city. A HARD PROBLEM FOR THE POLICE

WHAT CAN THEY DO WITH THE MANY VAGRANTS?

THE CITY IS FULL OF THEM

Supervisor Made That City Establish Reception Manufacturing Plant Which Would Largely Relieve the Situation—Problem of Deserving City.

One of the hardest problems confronting the local health department here is the vast number of vagrants swarming into the city day and night and the work that has to be done for them to do them. These men are the cause of the city's health and police troubles, and they are a constant annoyance to the city.

Almost daily the health department has to deal with a large number of these men, and they are a constant annoyance to the city.
